Avalon Medical Partners with New Canadian Distributor Midwest Veterinary Purchasing to carry RediHeal, SIS

STILLWATER, MN – May 12, 2014 – Avalon Medical is pleased to announce the emergence of a new partnership with Canadian distributor Midwest Veterinary Purchasing (MVP). Beginning in May of this year, MVP will begin carrying the complete line of RediHeal wound and dental care products, as well as SIS^{plus} tissue patching material. This marks Avalon Medical's first international partnership with a veterinary distributor.

Midwest Veterinary Purchasing is a cooperative which offers next day service of veterinary products to most points in the Saskatchewan, Manitoba and Northwest Ontario.

Founded in 1998, Avalon Medical is focused on bringing the research, development and sales of innovative surgical products to the veterinary market. Their goal is to help veterinarians achieve their mission by bringing them access to some of the most advanced veterinary medical solutions available at a cost-effective price. They have worked closely with academic institutions and clinical practitioners for over thirty years in both the human and veterinary surgical communities, and are excited to continue to provide the veterinary community with the most unique and innovative products available.
